Subtd to the Hon'ble Registrar with a memo (for kind signature) to the Asst Comptroller requesting information as to the pay which the compounder of the Bavagada dispensary is now in receipt of, his name etc

On receipt of the information, needful action will be taken for the disposal of these old papers.

5.6.09. SJ

Hon'ble Sir Sand that if possible this might be disposed of without any reference. Hence a D.O. to manager of the Secretariat office enquiring where the compounder is now working & what his pay is, to be put up for signature

Illegible 3/6/09

This is an old reference of the year 1898, nearly eleven years old and relates to the grant of an increase of Rs 2 to a compounder - No orders are required thereon at this distance of time. The papers may be filed -

8.6.09. BLR 8/6

Subtd to the Registrar for instructions as to how an old Comm[n] of the year 1898 is now to be dealt under the present system of recording papers. If agreed, the Genl Records may be asked to place the Comm[n] under this routine note, in the Notable file of the year 1898 relating to Compounders or in the file relating to L.F. dispensaries in the Tumkur district for that year.

The Manual does not restrict records & files to any particular year. The Branch suggests placing & those in certain files & it can do add get the files wanted and with the number that file they can be recorded. The simpler course would be to ask the Sp. Ex to allot a file No to the papers and with that No please them.

This may be done

This Branch does not know what to do with the papers if only a file No: is given Special Establ itself may, as it does in regard to old files, make the necessary entry in the File Register and record the papers in the same way as old papers are now being recorded by the Spl Estabt.

This work is, it is believed, within the scope of the Special Establ and forms a legitimate part of its duties.

19.4.09

Now is the convenient time for the Branch to record the papers disposed of before the Special Estabt was started

Not so. There is no disposal in this case. Papers were ordered to be kept

19/4/09

For all practical purposes, the papers in this file, should, I think, be regarded as having been disposed of during the pre-manual period & as such, should be attended to by the Spl Estabt. If you think otherwise, kindly obtain the Registrar's orders in the matter

19.4.09

The Supdt Branch IV seems to think that there is no disposal. If this work is to be done by the Spl Estabt orders to file papers should go

Balasundara Pandit was recently transferred from Kayenkadu to Karaikal where he drew an allowance of Rs. 15/- per mensem as Parangaya at the interest of Baillie. Service and it will be very hard if he is deprived of Rs. 2. and made to draw Rs. 8/- only as at present.

The Compounder is an English Burman, having passed the Medical School Examination and is intelligent and capable of looking after the ordinary routine of the Dispensary during the absence of the Hospital Assistant in Charge.

I would therefore recommend that he be granted Rs. 10/- per mensem as a special case even though he has not as yet received 3 years service, in consideration of the same amount of pay he was drawing

SIR,—In forwarding the enclosed application of V. BALASOONDARAM MOODELLIAR, I beg to recommend that he may be appointed as First Class Compounder on Rs.15 per mensem and attached to this Dispensary on the following grounds.

He knows how to Compound Medicines and making up of prescriptions accurately and I can safely entrust him with the above tried for a period of two months. He is intelligent, trustworthy and hard working.

Knows fairly well how to talk and write English with a neat hand and to keep up office records. As regards the educational qualification he has passed the Madras Middle School Examination.

He was trained in the capacity of Compounder for upwards of three years, also in the Medical Stores, Mysore Government and discharged his duties to the thorough satisfaction of Mr. P. PALPU, the present Assistant Surgeon of Medical Stores who testified well to his capabilities.

13

DEAR DOCTOR BENSON,

The bearer, the Compounder of our Local Dispensary here is anxious to secure a scholarship to enable him to attend the Medical College and qualify himself for an Hospital Assistant's place.

He appears to be of use in the Dispensary and may be given a chance if you are not already bound by other applicants.

With best regards,

I am yours sincerely,

5th June 1897,
BOWRINGPET,

(Signed) T. CHOKANNA,
Amildar or 2nd class Magistrate.

I have known BALASOONDRAM MOODR., Hospital Compounder, for the past two years. he is very willing attentive and quick in the discharge of his duties and he deserves encouragement for bettering himself in a place like Bowringpet which is daily getting important.

30th December 1897,
BOWRINGPET.

(Signed) J. FERNANDEZ.
Agent to the Brown & Co., Gold Mines.

Dr. McGann, the late Senior Surgeon, has also patronized him.

He is competent to look after the work of the Dispensary if any, during the short absence of the Hospital Assistant on court or other duty.

Under the foregoing circumstances the concession prayed for, if granted is a great boon to the public at large as several Europeans, Eurasians and Natives freely resort to the Dispensary for Medical relief coupled together with large attendance of patients varying between 60 and 70 in consideration of Bowringpet being a busy and important station and as such an efficient and intelligent English knowing Compounder will be very useful to attend to the public want; want of one is keenly felt by me in the daily ordinary run of duties imposed upon me.

Soliciting that early orders may be kindly passed for the said Balasoondaram Moodelliar, under the circumstances represented above.

I beg to remain,

Sir,

Your most obdient servant.

I have known Mr. Balasoondram Moodelliar, some time as the Compounder at the Government Dispensary in this place. I have never needed his services personally, but many of our people have at various times needed medicine from the Dispensary. Their testimony to me concerning him has always been most favourable. His willingness to serve, and his ability in discharging his duties have been very manifest. Such a servant of the Government deserves every encouragement.

GENERAL

PROCEEDINGS

ated 8th June 1896

No. 13250-1 Mis. 1962

Revising the scale of pay of the compounders employed in the various hospitals and dispensaries in the State.

M.G.C.P.B.—5-7-96—200

READ :—

Letter No. 2370, dated 4th April 1896, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, to the Secretary to the Government, General and Revenue Departments, Bangalore.

In reference to your docket No. 13635—G. 3095, dated 4th March 1895, calling for a proposition statement of compounders in the prescribed form, I have the honor to forward the required statement marked A and to recommend that the Government will be pleased to sanction the revised scale proposed.

2. The necessity for the revision having been explained already at some length in my letters Nos. 1509 and 1127 of 2nd November 1888 and 1st October 1894, respectively, there appears to be no necessity to repeat it here, but suffice it to say that the difficulty of getting educated men of good caste for employment as compounders could be surmounted if the proposal is approved of by Government and sanction accorded thereto.

3. It will be observed from the abstract statement marked B, that there are at present 107 compounders employed in all the hospitals and dispensaries of the province. Of these compounders 40 can read and write English; 87 can read and write Kanarese; 10 can do so a little, and 11 illiterate; the whole consisting of 93 caste men and 14 non-caste men.

4. As regards ability in their work, 42 can be entrusted with making up prescriptions while 65 cannot be so entrusted without supervision.

5. In respect to service rendered there are 58 individuals who have put in 3 years and under; 26 from 4 to 6 years; 13 from 7 to 10 years; and 10 from 11 to 20 years; and their pay ranges from Rs. 5 to Rs. 15 per mensem as shown below :—

1	on	Rupees 5—	per mensem.
2	on	„ 6—	do
90	on	„ 7—	do
1	on	„ 9—	do
11	on	„ 10—	do
1	on	„ 12—	do
1	on	„ 15—	do
Total	...	107	

6. The scale of pay suggested in my letter No. 1127 of 1st October 1894 was adopted in the preparation of the proprosition statement, as I consider that the scale as in use in the Madras Presidency is rather too high as will be seen from the following table :—

As proposed in Mysore.	Rs.	As in use in the Madras Presidency.	Rs.
During the 1st 3 years of service ...	8	During 1st 5 years of service ...	9
From 4 to 6 years	10	From 6 to 10 years	12
From 7 to 10 years	12	From 11 to 20 years	15
From 11 to 20 years and upwards ...	15	Over 20 years	18

7. The hospitals at Mysore, Shimoga and Chitaldrug, which have been hitherto without compounders, have been provided for in the scheme and an uniform rate of pay, of Rs. 10 to begin with, fixed in the case of others were the pay was below Rs. 10, for the sake of uniformity and on account of the more onerous and responsible nature of the work performed by them in the District Hospitals.

8. It is proposed in the statement to employ an additional female compounder at each of the hospitals noted in the margin as there are in the City Hospital, Bangalore, and the General Hospital, Mysore; female departments under the management of the female hospital assistants appointed solely for the treatment of female patients; and in the case of the maternities at Bangalore and Mysore female compounders are necessary. The pay of these female compounders is to be Rs. 10 each per mensem to begin with, and it is intended to employ young intelligent women of good character.

1. Government City Hospital, Bangalore.
2. Maternity Hospital, Bangalore.
3. General Hospital, Mysore.
4. H. H. the Maharani Hospital, Mysore.

9. Necessary steps will be taken in regard to men already in service who are deficient in the art of compounding by making them to learn the work in the major dispensaries for some months, failing which, that is to say, if they fail to show any improvement in their knowledge they are to be removed as soon as men with the required education are trained as compounders for at least 8 months at one of the district head-quarter hospitals, during which time a subsistence allowance of Rs. 5 per mensem might be given them.

10. The delay in the submission of the statement was in consequence of the individual statements received from the medical officers and subordinates having had to be returned to them for correction, &c., more than once.

11. In conclusion I am to say that the proposal involves an extra expenditure of Rs. 320 per mensem which may seem rather high, but in such a case as this safety of the public and efficiency of the work to be done have to be considered.

No. 13250-1—Mis. 1962, DATED, BANGALORE, 8TH JUNE 1896.

ORDER THEREON.—In the letter read above the Senior Surgeon brings to notice the long felt want of good and efficient compounders for the various hospitals and dispensaries in the province, and also the importance of securing educated and high caste men for the important work of compounding medicines. To supply this want he proposes to make the pay of this class of officials sufficiently attractive by raising the existing scale of emoluments, and he accordingly submits a proposition statement involving a net increase of Rs. 320 per mensem to be met from the following sources :—

Rs. 44 from the Provincial Funds.
„ 273 from the District and Municipal Funds, and
„ 3 from Yelandur Jaghir.

Rs. 320

2. The above proposition statement also provides for six new female compounders being entertained on Rs. 10 each at the marginally noted hospitals, thus raising the total number from 107 to 113.

1. Government Hospital, Bangalore.
1. Maternity Hospital, Bangalore.
2. General Hospital, Mysore.
1. H. H. the Maharani Hospital, Mysore.
1. Civil Hospital, Chitaldrug.

3. Of the compounders already in service, 107 in number, 65 are said to be deficient in the art of compounding. The Senior Surgeon proposes to give such persons a chance of qualifying themselves by a course of training in the major dispensaries. In the event of their failing to prove themselves useful he proposes to re-place them by persons trained in one of the head-quarter hospitals for at least 8 months, during which period they will be paid Rs. 5 a month as subsistence allowance.

4. These proposals of the Senior Surgeon commend themselves to Government and the same are hereby sanctioned.
